01

**Welcome to
Xcharge EV CH**

Welcome to **Xcharge EV GH**

■ **Who We Are**

Xcharge EV GH is a forward-thinking start-up driving the adoption of electric vehicles (EVs) by deploying and managing EV charging stations across Ghana.

■ **Our Business Model**

We collaborate with OMCs, Businesses, property managers, and landowners to transform unused or underutilized spaces into profitable EV charging hubs.

“

We're not just building electric cars, we're building the future.
Every charger is a bridge to a world where our energy is clean,
our roads are silent, and our air is breathable."

— Elon Musk

02

**The EV Revolution
is Here**

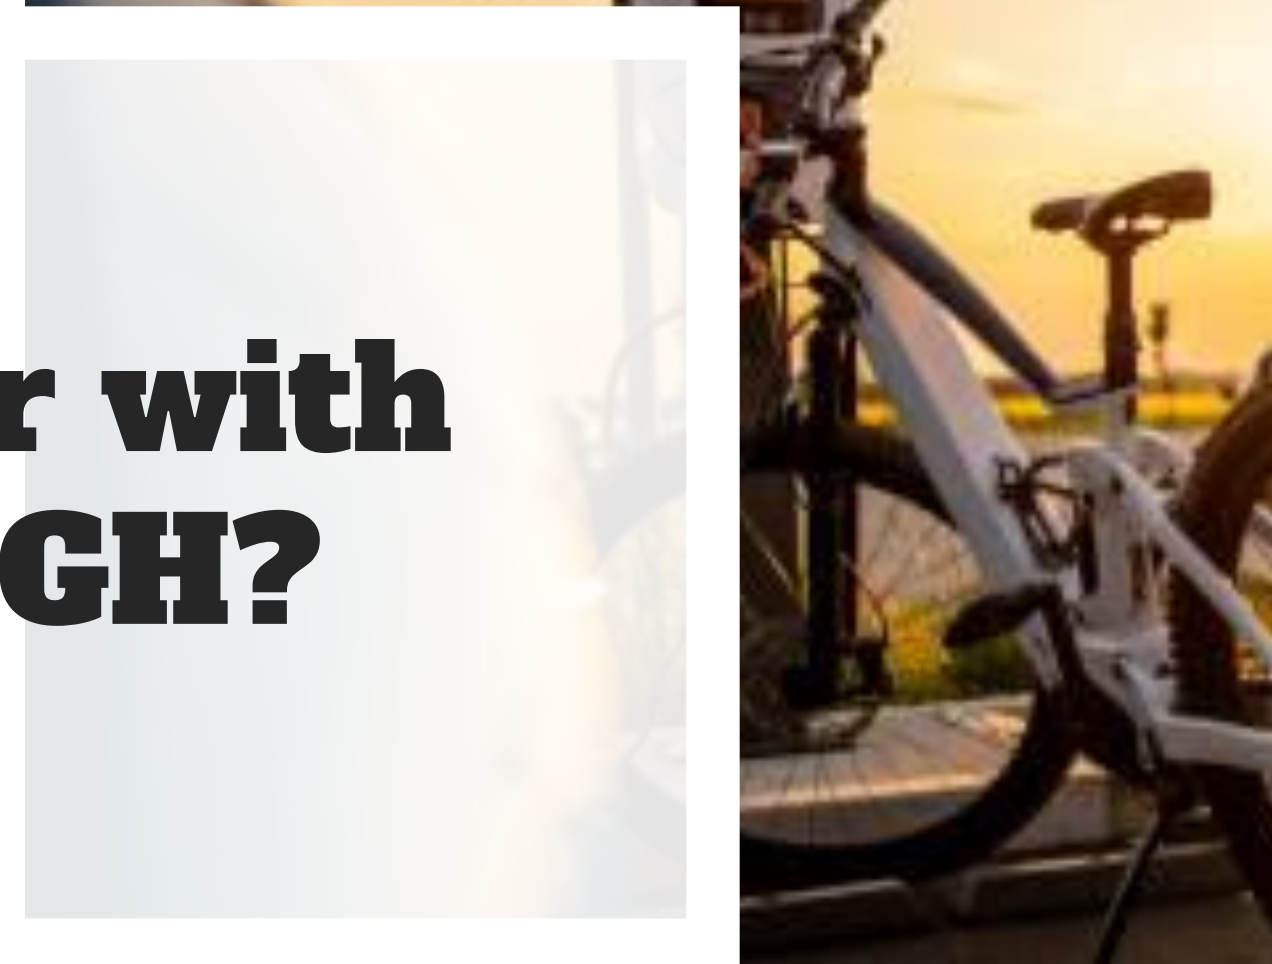

The EV Revolution is Here

- **Rising EV Adoption:** More Ghanaians are transitioning to electric vehicles.
- **Government Incentives:** Policies promoting sustainable transport.
- **Growing Demand for Charging Infrastructure:** Limited charging options create a lucrative market.

Your space can be at the forefront of this green transformation.

03

Why Partner with Xcharge EV GH?

- **Turn Your Space into Revenue** - Earn consistent income through a profit-sharing model.
- **Varied Partnership Options** - JVs, CLO, MSPs etc.
- **Enhance Property Value** - Attract customers, tenants, or visitors by offering a convenient service.
- **Sustainable Branding** - Align your business with the growing movement for green energy.
- **Risk-Free Opportunity** - No technical expertise required; we manage everything for you.

04

How the Partnership Works

How the Partnership Works

- **Site Assessment** - We evaluate your location for suitability, including traffic flow and accessibility with support from our Technical Partner - PlugDrive.
- **Installation** - Xcharge EV GH deploys state-of-the-art charging equipment at no upfront cost to you.
- **Revenue Sharing** - Earn a percentage of the profits from every charging session at your location [TDB].
- **Maintenance & Support** - We provide ongoing support to ensure reliability and performance.

05

Benefits to Your Business

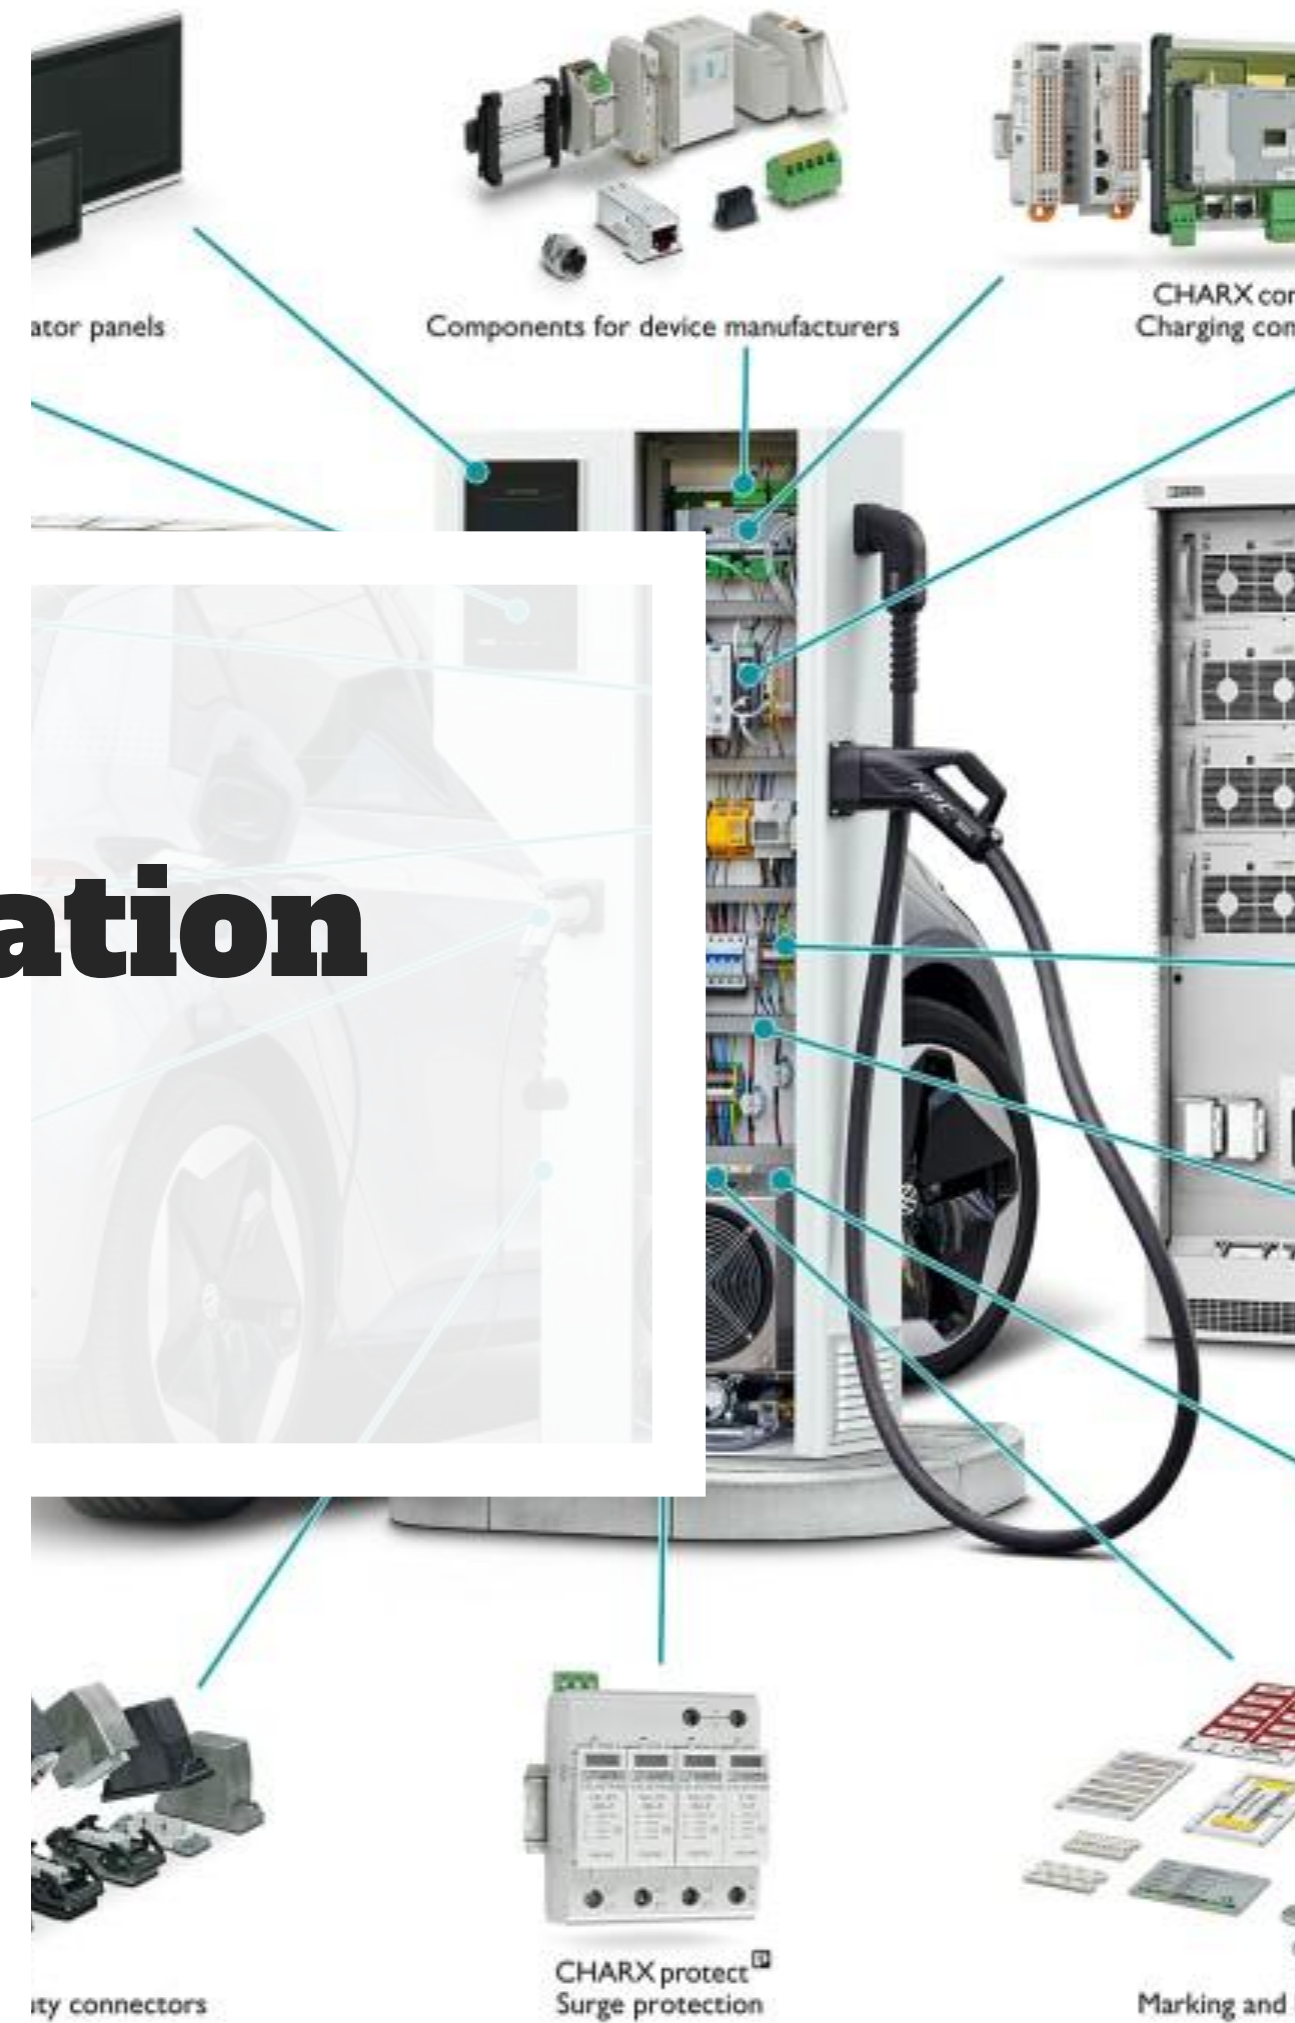

Benefits to Your Business

- **Passive Income** - Earn revenue without extra workload.
- **Increased Foot Traffic** - EV drivers stop to charge, and many may patronize your business.
- **Future-Proofing** - Position your business for the EV-driven future.
- **Sustainability Impact** - Contribute to Ghana's green energy goals and appeal to eco-conscious consumers.

06

Charging Station Features

Charging Station Features

- **Universal Compatibility** - Supports all EV brands.
- **Fast Charging** - Quick turnaround times for EV users.
- **Smart Management** - Integrated with apps for real-time monitoring and payment.
- **Custom Branding Options** - Co-branding available to highlight your involvement.
